

Professional Website Design Services

The Challenge

Your website is your face to the world and an important connection between your business and your customers. It may be the first interaction customers have with you, so it must be professional, easy to navigate, and informative. But who can you trust to build a site that fits your needs and budget? The online companies want to sell you a template and make you do the work. Meanwhile website shops charge thousands of dollars just for a basic site.

The Solution

Have your website built by the best. At ServerExperts, we are the professionals at building and maintaining websites! We offer three different website design packages.. **Core**, **Premier**, and **Custom**.. to fit your needs. Plus we provide you with personalized service from the first requirements discussion to the last-minute finishing touches. Our exclusive development process features milestones that allow you to control the timeframe and finished product. But the support doesn't stop when your new website goes live. We also can help you maintain and expand your site over time!

Core Website Package

Perhaps your business is just getting off the ground, or maybe this is your first website. You need to get your essential information on the web without spending a fortune. Yet you also want to make sure the site you have built can grow and expand over time without starting over. Our Core Website Package fits these scenarios precisely. For one fixed price we build your new website with a beautiful home page and up to four other content pages. This website is fully functional, yet can also be expanded over time to include more pages, Flash, database-driven elements, and other items as your needs grow!

- **Core Website Design Package – \$850 per website**

Premier Website Package

No matter if your business is a medical clinic, law firm, or manufacturing company, you need a website that both tells visitors about your company and entices them to become customers. Our Premier Website Package is built to help your business shine. It will exude character and charisma, while drawing the visitor in to look around. We begin with all the elements of the Core Website Package to which we add additional content pages.. up to twenty total, and in a hieratical layout so you can have sections and subsections. Next we add Flash elements and fly-out or drop-down menus to catch the eye of the visitor. Lastly we incorporate interactive forms that let the visitor submit their information to you and/or sign themselves up for special offers or a callback. The resultant website will stand out from the competition and help elevate your business to the next level.

- **Premier Website Design Package – \$1,495 per website**

Custom Website Package

Perhaps you need a database-driven site that displays your product catalog? Or maybe you require a Flash intro to showcase your unique services? Our Custom Website Package is built to cover the needs of our most demanding clients. The package includes all of the elements of the Premier Website Package, plus additional features like database-driven pages, user-updatable content, and your choice of a Flash intro or in-site movie. As the name implies, the resulting site is a custom creation.. your vision, made real by our team.

- **Custom Website Design Package - \$2,695 per website**

Website Maintenance, Updates, and Refreshes

From helping renovate an existing website to updates after the go-live of your new site, the web design team at ServerExperts will listen to your needs and be there to assist. We can help you maintain, expand, and update your website so that it evolves as time passes. Perhaps you need help with your current website? We can undertake projects ranging from minor tweaks to a complete design refresh. With our website support you will experience responsive service and exceptional customer care!

- **Website Design/Support Services Outside of Package - \$95 per hour**
